always listening

ATH-**E70**

The ATH-E70 is the flagship in-ear monitor model in the E-Series. Its accuracy and detail allow precise balancing of the mix, making it the perfect choice for monitoring on stage or mixing in the studio. Offering extended frequency response and an accurate sound stage, this model is designed for sound professionals who demand the best.

The ATH-E70 features specially designed housings that provide incredible isolation. The isolation – and the comfort – are enhanced by the four sizes of silicone eartips (XS/S/M/L) and medium-size pair of Comply™ T500 foam eartips included with the headphones, which allow you to create a custom fit. The ATH-E70 also includes a detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones and a 3.5 mm (1/8") stereo mini-plug output, a 6.3 mm (1/4") adapter, and a carrying case.

- **Three balanced armature drivers provide accurate and extended response across the entire frequency range**
- **Flexible memory cable loops over ears for a custom fit and long-wearing comfort**
- **Specially designed housings provide maximum isolation, allowing you to focus on the music**
- **Detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones, offers exceptional durability and optimized audio performance**
- **Includes a carrying case, 6.3 mm (1/4") adapter, silicone eartips (XS/S/M/L) and Comply™ foam tips**

ATH-**E50**

The ATH-E50 features specially designed housings that provide excellent isolation, ensuring confident, comfortable stage performance. To address the evolution of modern music production, this model also excels at providing a consistent reference in every sonic environment, making it the ideal choice for the producer on the road.

The sound isolation and comfort offered by the ATH-E50 are enhanced by the four sizes of included silicone eartips (XS/S/M/L), which allow you to create a custom fit. The ATH-E50 also comes with a detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones and a 3.5 mm (1/8") stereo mini-plug output, and a carrying case.

- **Powerful single balanced armature drivers provide an accurate full-range response**
- **Flexible memory cable loops over ears for a custom fit and long-wearing comfort**
- **Specially designed housings provide maximum isolation, allowing you to focus on the music**
- **Detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones, offers exceptional durability and optimized audio performance**
- **Includes a carrying case and silicone eartips (XS/S/M/L)**

ATH-**E40**

The proprietary dual phase push-pull driver design of the ATH-E40 professional in-ear monitor headphones provides improved fidelity and efficiency. These headphones deliver powerful bass along with balanced mid and high frequencies to convey the full emotion of the music from the stage to the street.

The ATH-E40 features specially designed housings that provide incredible isolation. The isolation – and the comfort – are enhanced by the four sizes of included silicone eartips (XS/S/M/L), which allow you to create a custom fit. The headphones also come with a detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones and a 3.5 mm (1/8") stereo mini-plug output, and a carrying case.

- **Proprietary dual phase push-pull drivers excel in monitoring applications by providing exceptional accuracy and clarity**
- **Flexible memory cable loops over ears for a custom fit and long-wearing comfort**
- **Specially designed housings provide maximum isolation, allowing you to focus on the music**
- **Detachable 1.6 m (5.2') cable, with newly developed A2DC (Audio Designed Detachable Coaxial) connectors at the headphones, offers exceptional durability and optimized audio performance**
- **Includes a carrying case and silicone eartips (XS/S/M/L)**
