MVC-4200

Camera Auto-tracking Controller

MVC-4200

Size(mm):
483(L)x260(W)x43.6(H)

Product overview

MVC-4200 can accomplish the the auto-tracking function perfectly with the coordination of CREATOR conference system and the camera controlling keyboard.Embedded a VIDEO 6X1 matrix switcher,high-performance scaler,support up to 6 units' camera controlling.

Function characteristics

- Support several kinds of video camera control protocol and telecommunicate baud rate.
- Input voltage: AC 120-240 V, subjected to the enduring high pressure test, and safe standard guarantee .
- Metal materials enclosure assure of ability to anti static 8000V.
- International universal power.

Specifications

The parameter name	MVC-4200
Power	100V/240VAC
Maximum power consumption	5W
Video input	BNC×6 balance input
Video output	BNC, RCA, VGA
Video network rate	8MHz
VGA output	1280×1024,60Hz
Weight	3Kg
Color	Grey
