

Road Safety

Road Safety

Safety through enhanced visibility.

Road Safety Series features LED road marking products engineered to provide enhanced visibility in demanding environments. With no wiring or external energy source needed, Road Safety products are solar powered, economical and long-lasting with minimal maintenance required. High-intensity LEDs and advanced optical design ensure construction zones are effectively marked for the safety of crews and those who navigate the surrounding environment.

Features

- Easy to install
- CE certified
- No maintenance necessary
- Economical and long lasting
- Road stud features load tolerance of 16-25 tons
- Super bright LEDs can be seen from 5km away

Solar LED Warning Light

WM-210

Size	Lighting area: 136mm (Dia) X 140mm Height: 172mm
Weight	1.5 kgs
Housing	Polycarbonate UV protected PC
Switch	Auto
Operation Time	up to 3 nights, can be extended to 6 nights
Full Charge Time	12 hours

Solar LED Warning Beacon

TM-403

Size	Height: 240mm Width: 180mm
Weight	0.26 kgs
Housing	Light-permeability PC
Switch	Auto / off
Operation Time	Up to 72 hours
Full Charge Time	6 hours

Solar LED Warning Light

WM-201

Size	Diameter: 90mm Height: 160mm
Weight	0.26 kgs
Housing	Light-permeability PC
Switch	Auto / off
Operation Time	Up to 72 hours
Full Charge Time	6 hours

Solar LED Boad Stud

TM-601

Size	Diameter: 113mm Height: 70.2mm
Weight	0.75 kgs
Housing	Cast Aluminum, Tempered Glass
Switch	Auto
Operation Time	Up to 36 hours
Full Charge Time	12 hours

Solar LED Boad Stud

TL-404

Size	Length: 124mm Width: 100mm
Weight	0.44 kgs
Housing	Cast Aluminum
Switch	Auto
Operation Time	Up to 36 hours
Full Charge Time	6 hours

Applications

- Sign Posts
- Toll booths
- Parking spaces
- Hazard signage
- Construction sites
