

## HZ-400 Professional Haze Machine

The HZ-400 is equipped with an internal, maintenance-free air compressor, a sophisticated haze transfer mechanism, and a specially designed liquid tank. The HZ-400 is equipped with two haze nozzles capable of producing virtually invisible large volume of haze output. The fine translucence and non-stop output produced by HZ-400 makes more remarkable by the fact that with this hazer there are no temperature controls, hot air and warm-up times during operation. Its internal compressor is extremely powerful, quiet and very efficient. With an added on-board DMX which provides users to control the unit by any DMX 512.

HZ-400 Professional Haze machine is the elegant combination between the ultimate haze quality from high capacity, low fluid consumption and silent operation demanded by professionals.
