

# SW-250X

## SW-250X High Output Snow Machine

Are you looking for a snow machine which can generate higher volume of output? Then the Antari SW-250X is your best solution.

SW-250X is not only a completely digitalized snow machine with on-board DMX control, but also can create a real blizzard effect.

Compare to its predecessors, S-100II & S-200, its snow output is increased about 250% at maximum.

In addition, timer and volume (1~100% output) control functions allow you to control the snowflakes effect even more accurately.

No doubt. Antari SW-250X is the best answer to all kinds of snow effects requests.
