If your voice is your instrument, you want to share your passion. But to be heard by the world, you need to record it, right? The MIC 2 USB Interface Cable connects your dynamic microphone directly to music's present and future by plugging straight into your computer. Now when inspiration strikes, you can capture the moment in all its dazzling brilliance – and share it with everyone! MIC 2 USB is also perfect for spoken word performances, and for recording acoustic instruments and guitar amplifiers with dynamic microphones.

Your Voice to Hi Tech Interface

The incredible MIC 2 USB is the very essence of simplicity. Connect the balanced XLR connector to your dynamic microphone and run the USB cable to your computer. It just doesn't get any easier than this!

In the Zone

MIC 2 USB's long cable (16.5' / 5 m) provides the ultimate in convenience for tracking in the studio – putting your best performance squarely in the zone!

Plug and Play

MIC 2 USB interfaces seamlessly with Windows* PC and Mac* operating systems and is ideal for use with low latency ASIO* drivers (such as ASIO4ALL*) for PC and the built-in Core Audio drivers for Mac. Step into the virtual world of recording software, amplifier and effect plug-ins and create stunning soundscapes – that would otherwise require the keys to one the world's top recording studios. MIC 2 USB works with virtually all popular 32-bit compatible recording software including Avid Pro Tools*, Ableton Live*, Steinberg Cubase*, etc., so you can record tracks directly into your favorite DAW – and mix and master to your heart's content.

Total Recording Flexibility

MIC 2 USB supports both 44.1 kHz and 48 kHz sample rates for maximum flexibility, so whether you are recording the next global smash hit or a heart-stopping movie theme song, it's all you need.
