- ¼" TRS headphone connector with auto-mute loudspeaker function easily accessible on the front panel
- Magnetically shielded for placement near computer monitors
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

Looking for a fast, affordable way to upgrade to a digital computer sound system? Maybe you'd like a great-sounding alternative to the built-in speakers on your portable synth/keyboard? Or, maybe you'd like to turn your computer into your own personal recording studio.

The MS20 Two-Way Active Personal Monitor System can tackle these tasks and more, and is the ideal way to upgrade your sound system. This high-performance, 20-Watt compact stereo system features full 24-Bit/192 kHz digital performance with powerful woofers and high resolution tweeters, plus dedicated Volume, Bass and Treble controls for the ultimate flexibility. Together with a full host of other features, they're sure to liven up any listening experience!

Sound Quality

Sporting 3.625" woofers and 2.5" high-resolution tweeters, MS20 monitor speakers bring high-quality audio within the reach of anyone with a computer workstation. Whether you're a musician tracking your latest masterpieces, or just someone who listens to your favorite songs at work, MS20 loudspeakers will make them sound significantly better. They also make excellent add-on speakers for electronic keyboards. Front-mounted volume and individual bass and treble controls make accurate sound adjustments a breeze.

Built-in Mixer

The MS20 takes audio to an even higher level with its multiple input options. The built-in mixer features ⅛" stereo inputs for connecting CD/MD/MP3 players, dual RCA jacks for tape decks and stereo keyboard modules, and even both RCA and TOSLINK connectors for digital signal sources. This adds up to a system that lets you play along with a variety of prerecorded tracks. And you can wail away to your heart's content in total privacy, thanks to MS20's powerful headphone jack.

Speaking of Power…

Two high-powered amplifiers feed a total of 20 Watts of super-clean power to the internal speakers, providing an ultra-wide frequency response from 65 Hz to 25 kHz.
