Powered Mixers

EUROPOWER PMP1000

500-Watt 12-Channel Powered Mixer with Multi-FX Processor and FBQ Feedback Detection System

- Ultra-compact 2 x 250-Watt stereo powered mixer (500 Watt bridged mode)
- Revolutionary Class-D amplifier technology: enormous power, incredible sonic performance and super-light weight
- Studio-grade stereo FX processor with 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies for easy feedback removal
- 12-channel mixer section features 4 mono and 4 stereo channels, 2 additional stereo inputs plus separate tape returns
- 6 high-quality mic preamps with switchable +48 V phantom power for condenser microphones
- Effective, extremely musical 3-band EQ, switchable Low cut filter and Clip LEDs on all mono channels
- Stereo 7-band graphic EQ allows precise frequency correction of monitor or main outputs
- Voice Canceller function removes singer's voice from recordings for Karaoke applications
- Selectable stereo (main L/R), double mono (main/monitor) or bridged mono amplifier operation mode
- Standby switch mutes all mic channels during breaks while background music is provided via tape inputs

The amazing PMP1000 Powered Mixer packs tremendous power (2 x 250 Watts stereo or 500 Watts in Bridged mode), while maintaining an incredible power-to-weight ratio. The 12-channel PMP1000 features 9 high-quality mic preamps, 4 stereo channels, a studio-grade 24-bit Multi-FX processor with 100 awesome presets including studio-class reverbs, delays, pitch shifter and various multi-effects, plus a 7-band stereo graphic EQ with our FBQ Feedback Detection System, for the ultimate in high-quality sound and feedback-free performance.

EUROPOWER PMP1000

500-Watt 12-Channel Powered Mixer with Multi-FX Processor and FBQ Feedback Detection System

- Breathtaking XPQ 3D stereo surround effect for more vitality and enhanced stereo image
- Adjustable stereo CD/Tape input for connecting external signal sources
- Multi-functional stereo Preamp outputs for added flexibility
- Internal switch-mode power supply for maximum flexibility (100 - 240 V~), noise-free audio, superior transient response and low power consumption for energy saving
- High-quality components and exceptionally rugged construction ensure long life
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

Class-D - Massive Power, Perfect Sound

Thanks to our revolutionary Class-D amplifier technology, we are able to provide you with enormous power and incredible sonic performance in an easy-to-use, ultra-portable and lightweight package. Class-D amplification makes all the difference, offering the ultimate in energy efficiency – and eliminating the need for heavy power supplies and massive heat sinks. This amazing technology makes it possible to design and build extremely-powerful products that are significantly lighter in weight than their traditional counterparts, while using less energy and protecting the environment.

All-In-One Solution

The powerful PMP1000 gives you the choice of 2 x 250-Watt stereo, 2 x 250-Watt dual mono or 500-Watt bridged mono sound. Whether the center of attention happens to be a folk trio, a speech, or a synth-rock band with mind-boggling stereo patches, the PMP1000 can accommodate with ease. This sonic versatility also makes it an excellent choice for churches, where vocals and stereo recordings often share face time.

Powered Mixers

EUROPOWER PMP1000

500-Watt 12-Channel Powered Mixer with Multi-FX Processor and FBQ Feedback Detection System

Built-in Digital Multi-FX Processor

Equipped with our studio-grade 24-bit Multi-FX processor, the PMP1000 gives you 100 mind-blowing digital effect presets such as delay, chorus and reverb. Apply them to any channel, as well as to the monitors and main output. Of course, if you have treasured outboard gear you've grown attached to, these mixers can integrate them into the mix while bypassing the built-in FX processor.

FBQ - Totally Feedback-Free

For more than 20 years, BEHRINGER has designed and manufactured some of the most successful FBQ Feedback Elimination processors. Now you can own and enjoy the benefits of this technology, as we have integrated the revolutionary FBQ Feedback Detection System into this product, so your sound system is completely feedback-free, allowing you to focus on your performance. Utilizing an ultra-fast feedback detection system, this ingenious circuitry helps you recognize and tame feedback frequencies immediately. When feedback is sensed in a specific frequency range, the LED on the associated EQ fader illuminates, showing you at a glance which fader to lower to overcome the feedback. That simple!

Special Features…

The PMP1000 also comes equipped with our Voice Canceller technology, which eliminates the vocals from pre-recorded music for instant karaoke applications – and our proprietary XPQ 3D stereo surround effect, which lets you create a much broader and enhanced stereo image.

EUROPOWER PMP1000

500-Watt 12-Channel Powered Mixer with Multi-FX Processor and FBQ Feedback Detection System

Getting Connected

Use the CD/Tape RCA inputs to feed in external stereo signals from CD players or tape decks. Conversely, the CD/Tape RCA outputs send line-level signals from the mixer to a recording device. The left and right output ¼" connectors can be used for a variety of purposes, including connecting to additional power amps. Connect your monitor power amps or active monitor speakers to the Monitor Sound output. Powered outputs on these mixers are available in the professional, twist-lock Speakon-compatible variety.

Small, Simple, Superb

Small to medium-sized events call for the lightweight PMP1000 (22.9 lbs/10.4 kg), easy-to-use 12-channel, 500-Watt powered mixer. The PMP1000 is the most efficient and affordable powered mixer for the job, and can even be used as a pure analog mixer – or a pure power amplifier. With its high-quality mic preamps, 24-bit Multi-FX processor, and stereo 7-band graphic EQ with our FBQ Feedback Detection System – the PMP1000 makes it easier than ever to lend exceptional sound quality to all kinds of public performances.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
