PMP500

500-Watt 12-Channel Powered Mixer with KLARK TEKNIK Multi-FX Processor, Compressors, FBQ Feedback Detection System and Wireless Option

- Ultra-compact 2 x 250-Watt stereo powered mixer
- Revolutionary Class-D amplifier technology: enormous power, incredible sonic performance and super-light weight
- Ultra-high quality KLARK TEKNIK FX processor with LCD display, dual-parameters, Tap function and storable user parameter settings
- Studio-grade compressors with super-easy "one-knob" functionality and control LED for professional vocal and instrumental sound
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies for easy feedback removal
- "Wireless-ready" for high-quality BEHRINGER digital wireless system (not included)
- 12-channel mixer section features 4 mono and 4 stereo channels, 2 additional stereo inputs plus separate Aux input
- 6 high-quality mic preamps with switchable +48 V phantom power for condenser microphones
- Effective, extremely musical 3-band EQ, switchable Low cut filter and Clip LEDs on all mono channels
- Stereo 7-band graphic EQ allows precise frequency correction of monitor or main outputs
- Selectable stereo (main L/R), double mono (main/monitor) amplifier operation
- Adjustable Aux input for connecting external signal sources

The amazing PMP500 Powered Mixer packs tremendous power (2 x 250 Watts, selectable as stereo or dual mono), while maintaining an incredible power-to-weight ratio. These mixers employ high-efficiency Class-D technology and a state-of-the-art switch-mode power supply, which significantly reduces weight and heat.

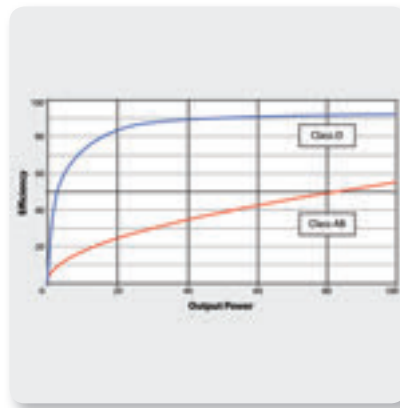

The 12-channel PMP500 features 6 high-quality mic preamps (2 of which also accept our ULM Digital Wireless Microphones, available separately), our "one-knob" compressors, 4 stereo channels, plus 2 additional stereo inputs and 1/8" Aux Input for the maximum in versatility. To round out this phenomenal feature set, we added a KLARK TEKNIK 24-bit Multi-FX processor with 32 awesome presets, including studio-class reverbs, delays, pitch shifter and various multi-effects with dual-addressable parameters, Tap function and storable user parameter settings – and a 7-band stereo graphic EQ with our proprietary FBQ Feedback Detection System – for the ultimate in feedback-free performance.

EUROPOWER PMP500

500-Watt 12-Channel Powered Mixer with KLARK TEKNIK Multi-FX Processor, Compressors, FBQ Feedback Detection System and Wireless Option

- Standby switch mutes all mic channels during breaks while background music is provided via Aux input
- Internal switch-mode power supply, noise-free audio, superior transient response and very low power consumption
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

Class-D - Massive Power, Perfect Sound

Thanks to our revolutionary Class-D amplifier technology, we are able to provide you with enormous power and incredible sonic performance in an easy-to-use, ultra-portable and lightweight package. Class-D amplification makes all the difference, offering the ultimate in energy efficiency – and eliminating the need for heavy power supplies and massive heat sinks. This amazing technology makes it possible to design and build extremely-powerful products that are significantly lighter in weight than their traditional counterparts, while using less energy and protecting the environment.

All-In-One Solution

The powerful PMP500 gives you the choice of 2 x 250-Watt stereo (L/R), or 2 x 250-Watt dual mono (Main/Monitor) operation. Whether the center of attention happens to be a folk trio, a speech, or a synth-rock band with mind-boggling stereo patches, the PMP500 can accommodate with ease. This sonic versatility also makes it an excellent choice for churches, where vocals and stereo recordings often share face time.

KLARK TEKNIK - The Reverb that Made History

KLARK TEKNIK is recognized worldwide as one of the most prestigious British audio companies, with a 40-year pedigree and even a TEC Lifetime Achievement Award to back it up. The Company has designed and manufactured products for world-class artists, and their legendary DN780 reverb processor is considered by leading audio engineers around the world as the industry standard. Check out their [website](#) to learn more about KLARK TEKNIK's legendary heritage.

BEHRINGER is proud to incorporate custom-engineered KLARK TEKNIK effects into their products. Featuring 100 world-class presets to choose from including reverb, chorus, flange, delay, pitch shift and many other amazing effects, KLARK TEKNIK created the 24-bit, studio-grade effects engine for BEHRINGER – to give your performance that truly professional finishing touch.

FBQ - Totally Feedback-Free

For more than 20 years, BEHRINGER has designed and manufactured some of the most successful FBQ Feedback Elimination processors. Now you can own and enjoy the benefits of this technology, as we have integrated the revolutionary FBQ Feedback Detection System into this product, so your sound system is completely feedback-free, allowing you to focus on your performance. Utilizing an ultra-fast feedback detection system, this ingenious circuitry helps you recognize and tame feedback frequencies immediately. When feedback is sensed in a specific frequency range, the LED on the associated EQ fader illuminates, showing you at a glance which fader to lower to overcome the feedback. That simple!

Own the Stage with Digital Wireless

Get wireless-ready with the built-in, dedicated connectivity of our ULTRALINK ULM Series wireless microphone system (to be ordered separately). Wireless gives you maximum freedom and mobility without the need to run cables. The highest-quality sound is provided thanks to the ULM's digital, license-free 2.4 GHz frequency spectrum.

The ULM wireless system combines professional-quality sound with simple setup and an intuitive interface for legendary audio performance right out of the box. Just plug in the ULM receiver "dongle", and instantly you have an exceptional wireless mic system. Freeing you from cables is the simply easy way to own the stage.

Getting Connected

Use the convenient 1/8" TRS connector to feed in external stereo signals from your smartphone, mp3 player or tablet. Powered outputs on these mixers are the standard 1/4" TS variety. We've even provided a footswitch jack, so you can activate/deactivate the FX remotely for making announcements. And when you're ready to take a break, the Standby switch mutes all of the mic channels – but lets your background music keep the party going!

Small, Simple, Superb

Medium-sized events call for the lightweight PMP500 (14 lbs/6.3 kg), easy-to-use 5-channel, 500-Watt powered mixer. The PMP500 is the most efficient and affordable powered mixer for the job, and can even be used as a pure analog mixer – or a pure power amplifier. With its high-quality mic preamps with "one-knob" compressors, KLARK TEKNIK 24-bit Multi-FX processor, ULM Wireless Microphone connectivity, and stereo 7-band graphic EQ with our FBQ Feedback Detection System – the PMP500 makes it easier than ever to lend exceptional sound quality to all kinds of public performances.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
