XENYX

QX1832USB

Premium 18-Input 3/2-Bus Mixer with XENYX Mic Preamps & Compressors, KLARK TEKNIK Multi-FX Processor, Wireless Option and USB/Audio Interface

- Premium ultra-low noise, high headroom mixer
- 6 state-of-the-art, phantom-powered XENYX Mic Preamps comparable to stand-alone boutique preamps
- 6 studio-grade compressors with super-easy “one-knob” functionality and control LED for professional vocal and instrumental sound
- Ultra-high quality KLARK TEKNIK FX processor with LCD display, dual-parameters, Tap function and storable user parameter settings
- “Wireless-ready” for high-quality BEHRINGER digital wireless system (not included)
- Built-in stereo USB/Audio Interface to connect directly to your computer. Free audio recording, editing and podcasting software plus 150 instrument/effect plug-ins downloadable at behringer.com
- Neo-classic “British” 3-band EQs with semi-parametric mid band for warm and musical sound
- 9-band stereo graphic EQ allows precise frequency correction of monitor or main mixes
- Revolutionary FBQ Feedback Detection System instantly reveals critical frequencies
- Breathtaking XPQ 3D stereo surround effect for more vitality and enhanced stereo image
- Voice Canceller function for easy-to-use sing-along applications

The feature-packed XENYX QX1832USB mixer allows you to effortlessly achieve premium-quality sound thanks to its 6 onboard studio-grade XENYX Mic Preamps and ultra-musical “British” channel EQs – with a semi-parametric mid band for warm and musical sound. And our easy-to-use “one-knob” compressors provide total dynamic control for the ultimate in punch and clarity, while respecting all the power and emotion you pack into every note. Add to this our **KLARK TEKNIK** FX processor with 32 studio-grade presets with dual addressable parameters, Tap function and storable user parameter settings – and the QX1832USB becomes an incredibly versatile mixer for your live performances.

But the XENYX QX1832USB isn't just designed to handle your live gigs; it also provides the state-of-the-art tools you need to make stunning, professional-quality recordings. Along with the built-in USB/audio interface, the XENYX QX1832USB comes with all the recording and editing software needed to turn your computer system into your own personal, high-performance home recording studio.

XENYX QX1832USB

Premium 18-Input 3/2-Bus Mixer with XENYX Mic Preamps & Compressors, KLARK TEKNIK Multi-FX Processor, Wireless Option and USB/Audio Interface

- Channel inserts on each mono channel for flexible connection of outboard equipment
- 3 aux sends per channel:
 - 1 pre fader for monitoring,
 - 1 pre/post fader switchable for monitoring/FX applications,
 - 1 post fader (for internal FX or as external send)
- Clip LEDs, mute, main mix and subgroup routing switches, solo and PFL functions on all channels
- 2 subgroups with separate outputs for added routing flexibility and 2 multi-functional stereo aux returns with flexible routing
- Balanced main mix outputs with gold-plated XLR connectors, headphone/control room output and stereo rec outputs
- Long-wearing 60-mm logarithmic-taper faders and sealed rotary controls
- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V~), noise-free audio, superior transient response plus low power consumption for energy saving
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

Sonically Superior Mic Preamps

The XENYX QX1832USB gets its name from our legendary, high headroom XENYX mic preamps, which have been praised by audio engineers all over the world. These state-of-the-art mic pres represent a major step in the evolution of audio technology – and they can easily hold their own, even when compared to the most expensive stand-alone mic preamps. XENYX preamps offer a staggering 130 dB of dynamic range, with a bandwidth that extends from below 10 Hz to well above 200 kHz. Armed with these outstanding mic preamps, the XENYX QX1832USB provides such transparent, crystal-clear performance you just might think someone upgraded your mics while you weren't looking.

Studio-Quality Compressor - Stairway to Heaven

Our studio-grade compressor is based on classic and famous studio equipment from the 70's. This totally transparent and musical compressor design allows your full dynamic range to shine through until your signal reaches the compression threshold, which is indicated by the highly visible status LED. The compressor increases sustain and gently smoothens out signal peaks, which is especially handy when you're laying down the funk, à la slap and pop – or hammering home your most-aggressive metal lines. The resulting output level lets you unleash powerful and impact-laden bass lines, while still sitting right where you need to be in the mix!

Premium 18-Input 3/2-Bus Mixer with XENYX Mic Preamps & Compressors, KLARK TEKNIK Multi-FX Processor, Wireless Option and USB/Audio Interface

Sublimely Musical British EQ

The British consoles of the 1960s and '70s changed the sound of rock and roll – without them the British Invasion might not have happened. Those legendary mixing desks soon became the envy of engineers and producers all over the world. The channel EQ on your XENYX QX1832USB is based on that very same circuitry, allowing you to imbue signals with incredible warmth and detailed musical character. Even when applied generously, these equalizers exhibit sweet forgiveness and superb audio quality.

KLARK TEKNIK FX on All QX Models

Nothing adds the finishing touch to a live or recorded performance like really good effects, so we equipped the QX1832USB with one of the best FX engines in the industry. Designed by the world-renowned KLARK TEKNIK engineering team, these high-end FX processors feature 32 studio-grade presets with dual addressable parameters, Tap function and storable user parameter settings. Complete with its own dedicated level meter, these effects provide a wide range of enhancement options, from sweet and mild to absolutely wild!

Own the Stage with Digital Wireless

Get wireless-ready with the built-in, dedicated connectivity of our ULTRALINK ULM Series wireless microphone system (to be ordered separately). Wireless gives you maximum freedom and mobility without the need to run cables. The highest-quality sound is provided thanks to the ULM's digital, license-free 2.4 GHz frequency spectrum.

The ULM wireless system combines professional-quality sound with simple setup and an intuitive interface for legendary audio performance right out of the box. Just plug in the ULM receiver “dongle”, and instantly you have an exceptional wireless mic system. Freeing you from cables is the simply easy way to own the stage.

XENYX QX1832USB

Premium 18-Input 3/2-Bus Mixer with XENYX Mic Preamps & Compressors, KLARK TEKNIK Multi-FX Processor, Wireless Option and USB/Audio Interface

FBQ - Totally Feedback-Free

For more than 20 years, BEHRINGER has designed and manufactured some of the most successful FBQ Feedback Elimination processors. Now you can own and enjoy the benefits of this technology, as we have integrated our revolutionary FBQ Feedback Detection System into this product, so your sound system is completely feedback-free, allowing you to focus on your performance. Utilizing an ultra-fast feedback detection system, this ingenious circuitry helps you recognize and tame feedback frequencies immediately. When feedback is sensed in a specific frequency range, the LED on the associated EQ fader illuminates, showing you at a glance which fader to lower to overcome the feedback. That simple!

Special Features...

The QX1832USB comes equipped with channel Inserts for inputs 1 – 4 for use with outboard FX, a stereo 9-band graphic EQ, which can be assigned to the main or monitor buses and our proprietary FBQ Feedback Detection System. Other features include full-sized faders for Monitor and FX Sends, our XPQ 3D stereo surround effect (creates a broader, enhanced stereo image), and a handy Voice Canceller function for removing vocals from pre-recorded media for “instant-karaoke” applications.

Recording Bliss

There was a time when the recording process called for lots and lots of expensive gear, which meant the average musician had to buy time at a recording studio – and that time was pricey indeed. But modern technology has put personal recording well within the reach of virtually anyone with access to a computer. How do you get all that music flying around your brain into your computer? That’s where the XENYX QX1832USB comes in. Thanks to the built-in, bi-directional stereo USB audio interface, you can connect any of these mixers directly to your PC or Mac computer via a single USB cable. Now any signal source you connect to the mixer can be recorded directly to your hard drive. Which brings us to software...
