Portable Speakers

EUROLIVE VP1220

Professional 800-Watt PA Speaker with 12" Woofer and 1.75" Titanium-Diaphragm Compression Driver

- Professional 800-Watt 2-Way PA speaker system (200 Watts Continuous / 800 Watts Peak Power)
- Exceptional sound quality, wide frequency bandwidth and dynamic range
- Extremely powerful 12" long-excursion driver provides incredibly deep bass and acoustic power
- Proprietary 1.75" titanium-diaphragm compression driver for exceptional high-frequency reproduction
- Proprietary horn design for ultra-wide sound dispersion
- Overload-protection circuitry ensures optimal HF driver protection
- Trapezoidal enclosure for easy array and sonic accuracy
- Integral tripod and stand adaptor
- Ergonomically shaped handles for easy transport
- Rugged steel grille for optimal speaker protection
- 2 professional speaker connectors plus ¼" jack connectors
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The EUROLIVE VP1220 loudspeaker is exactly what you've come to expect from BEHRINGER – 800-Watt power handling capacity, more features and absolutely more affordable! And thanks to the extremely powerful, long-excursion 12" Low-Frequency (LF) driver and state-of-the-art 1.75" titanium-diaphragm High-Frequency (HF) compression driver – the VP1220 arrives ready to push it to the limit right out of the box. The VP1220 is destined to become a legend in its own right, alongside the other EUROLIVE models that have made BEHRINGER the world leader in loudspeakers.

Custom-Engineered Transducers

Our LF and HF transducers are designed specifically for each application – it's what sets us apart from the competition. When you buy a BEHRINGER loudspeaker, you can rest assured that the transducers inside have been engineered to perform flawlessly in conjunction with every other element for truly professional results. The EUROLIVE VP1220 cranks out massive quantities of low end, with articulate, detailed mids and crystal-clear highs.

Spacious Highs

High-frequency content can easily make or break your performance. The EUROLIVE VP1220's 1.75" titanium-diaphragm compression driver provides natural-sounding high end, with an ultra-wide 70° x 50° sound dispersion pattern.

Big Sound, Lightweight and Affordable

Big here, small there, lots of this, just a touch of that – we all have our own personal preferences, but the VP1220 puts it all in a convenient, easy to carry package – and really packs a massive punch with power handling up to 800 Watts. Recessed and ergonomically-designed handles make them easy to lift and transport – and the great-sound VP1220 is supremely affordable.

Extraordinarily Versatile

The unique enclosure profile allows multiple positioning options: 10° or 35° cluster and stacking mode; stand mounting with a built-in 35 mm (1.375") pole socket; or positioning as a floor monitor wedge. Capable of extremely high sound pressure levels: 93 dB (Full Space, 1 W @ 1 m), the VP1220 has a wide frequency response of 50 Hz - 20 kHz. Built-in overload-protection ensures optimal HF driver protection. The VP1220's extraordinary fidelity and frequency response make it a favorite of vocalists and instrumentalists alike. Each loudspeaker features parallel inputs (both professional twist-lock and ¼" cable), so you can connect as many as your power amp can handle.

Which Speaker Should I Buy?

Well, let's start with your application… are you giving a speech in a hotel ballroom – or rocking out at the local bar or dance club? Whether to choose one speaker cabinet over another depends on your bass requirements. A 15" woofer has about 40% more surface area with which to move air than a 12" and that translates into more bass. So if you're addressing a small meeting, or jamming at the coffee house, the VP1220 might be all you'll ever need. But if you're providing disco in a busy nightclub, hosting Karaoke night in your living room, or just need to crank it up louder, then the VP1520 – or even the VP2520 may be a better choice.

Sound Value

The VP1220 PA loudspeaker stands head and shoulders above the rest of the pack and delivers exceptional performance, even when pushed to the limit. Lightweight and powerful, with custom-designed transducers, massive power handling and extreme portability, the VP1220 loudspeaker is ideal for any music application – at a price that is unheard of in this class.

Experience the EUROLIVE VP1220 at your local dealer today and find out why more and more professionals are turning to EUROLIVE Series loudspeakers for their superb performance and extraordinary value.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
