EUROLIVE VS1520

High-Performance 600-Watt PA Speaker with 15" Woofer and Electro-Dynamic Driver

- High-performance 600-Watt 2-way PA speaker system (150 Watts Continuous / 600 Watts Peak Power)
- Exceptional sound quality, wide frequency bandwidth and dynamic range
- Extremely powerful 15" long-excursion driver provides incredibly deep bass and acoustic power
- Proprietary dual electro-dynamic drivers for exceptional high-frequency reproduction
- Overload-protection circuitry ensures optimal HF driver protection
- Elliptical wave guide design for ultra-wide sound dispersion
- Integral tripod and stand adaptor
- Trapezoidal enclosure for easy array and sonic accuracy
- Ergonomically shaped handles for easy transport
- Rugged steel grille for optimal speaker protection
- 2 professional ¼" jack connectors
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The EUROLIVE VS1520 loudspeaker is exactly what you've come to expect from BEHRINGER – 600-Watt power handling capacity, more features and absolutely more affordable! And thanks to the extremely powerful, long-excursion 15" Low-Frequency (LF) driver and dual electro-dynamic High-Frequency (HF) driver – the VS1520 arrives ready to push it to the limit right out of the box. The VS1520 is destined to become a legend in its own right, alongside the other EUROLIVE models that have made BEHRINGER the world leader in loudspeakers.

Custom-Engineered Transducers

Our LF and HF transducers are designed specifically for each application – it's what sets us apart from the competition. When you buy a BEHRINGER loudspeaker, you can rest assured that the transducers inside have been engineered to perform flawlessly in conjunction with every other element for truly professional results. The EUROLIVE VS1520 cranks out massive quantities of low end, with articulate, detailed mids and crystal-clear highs.

Spacious Highs

High-frequency content can easily make or break your performance. The EUROLIVE VS1520's dual electro-dynamic drivers provide natural-sounding high end, with an ultra-wide 80° x 40° sound dispersion pattern – thanks to its custom-designed, elliptical wave guide.

Big Sound, Lightweight and Affordable

Big here, small there, lots of this, just a touch of that – we all have our own personal preferences, but the VS1520 puts it all in a convenient, easy to carry package – and really packs a massive punch with power handling up to 600 Watts. Recessed and ergonomically-designed handles make them easy to lift and transport – and the great-sound VS1520 is supremely affordable.

Extraordinarily Versatile

The unique enclosure profile allows multiple positioning options: 10° or 35° cluster and stacking mode; stand mounting with a built-in 35 mm (1.375") pole socket; or positioning as a floor monitor wedge. Capable of extremely high sound pressure levels: 94 dB (Full Space, 1 W @ 1 m), the VS1520 has a wide frequency response of 50 Hz - 20 kHz. Built-in overload-protection ensures optimal HF driver protection. The VS1520's extraordinary fidelity and frequency response make it a favorite of vocalists and instrumentalists alike. Each loudspeaker features parallel inputs (both professional twist-lock and ¼" cable), so you can connect as many as your power amp can handle.

Which Speaker Should I Buy?

Well, let's start with your application… are you giving a speech in a hotel ballroom – or rocking out at the local bar or dance club? Whether to choose one speaker cabinet over another depends on your bass requirements. A 15" woofer has about 40% more surface area with which to move air than a 12" and that translates into more bass. So if you're addressing a small meeting, or jamming at the coffee house, the VS1220 might be all you'll ever need. But if you're providing disco in a busy nightclub, hosting Karaoke night in your living room, or just need to crank it up louder, then the VS1520 may be a better choice.

Sound Value

The VS1520 PA loudspeaker stands head and shoulders above the rest of the pack and delivers exceptional performance, even when pushed to the limit. Lightweight and powerful, with custom-designed transducers, massive power handling and extreme portability, the VS1520 loudspeaker is ideal for any music application – at a price that is unheard of in this class.

Experience the EUROLIVE VS1520 at your local dealer today and find out why more and more professionals are turning to EUROLIVE Series loudspeakers for their superb performance and extraordinary value.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
