- Cardioid characteristic minimizes background noise and feedback
- Shock mount system to cut down handling noise
- Integrated spherical wind and pop noise filter
- Microphone stand adapter and impact-resistant carrying case included
- 3-Year Warranty Program*
- Conceived and designed by Behringer Germany

The XM8500 dynamic microphone is a performer's and home recording enthusiast's dream come true! This professional-quality microphone is designed to capture your sounds with outstanding sensitivity and accuracy. With a cardioid pickup pattern for excellent sound source separation and feedback rejection, this ultra-wide frequency response mic is an excellent choice for any performing or recording scenario – and it's rugged enough to go the distance! With an integrated shock mount system and spherical wind and pop noise filter, and coming packaged with a mic stand adapter and an impact-resistant carrying case, the XM8500 just may be the only microphone you will ever need.

What is a Dynamic Mic?

Dynamic mics have several advantages that make them ideal for live vocal applications and for recording amplified instruments. They're robust, resistant to moisture and can achieve high gain before feedback. The XM Series' cardioid pickup pattern captures the source signal, such as a guitar amplifier or vocalist, while shunning off-axis sound. And best of all, dynamic microphones don't require any phantom power, so all you need is your mic and cable!

ULTRAVOICE XM8500

Dynamic Cardioid Vocal Microphone

Why the XM8500?

The XM8500 provides an amazingly flat frequency response of 50 Hz to 15 kHz while incorporating a smooth mid-frequency presence rise for excellent voice projection, and includes a two-stage pop filter to minimize breath and pop noises. It features an extremely high output to get your voice out there! And with their tough metal construction and sturdy steel windscreen, you can count on the XM mics to come through after countless gigs and studio applications. We've even included a rugged hard case with a mic clip and stand adapter.

Make Yourself Heard...

The Ultravoice XM8500 is built to be your go-to dynamic mics for years to come. It's high-quality components and extremely rugged construction can withstand the rigors of the bar circuit with ease. And with the included mic stand adapter and carrying case, the XM8500 travels along with all you need in style.

This microphone is an excellent choice for live and studio applications, and is available at a price that will leave you with enough cash left over to secure other recording essentials. Check out the incredible XM8500 microphone at a dealer near you.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
