Desktop Controllers

X-TOUCH

Universal Control Surface with
9 Touch-Sensitive Motor Faders,
LCD Scribble Strips and
Ethernet/USB/MIDI Interface

- Universal DAW Remote Control for Studio and Live applications
- Supports HUI* and Mackie Control* protocols for seamless integration with every compatible music production software
- 9 fully automated and touch-sensitive 100 mm motorized faders
- 8 dynamic LCD Scribble Strips for instant overview of track names and parameters
- Ethernet interface for RTP (Real-Time Protocol) MIDI and future BEHRINGER X32 remote control
- 8 rotary controls with LED-collars for on-the-fly adjustments of your favorite parameters
- 92 dedicated illuminated buttons for direct access of key functions
- 8-segment LED meters per channel for precise level control
- Large jog/shuttle wheel and tape-style transport controls for intuitive operation
- Built-in 2x2 USB MIDI interface for direct connection to Mac* or PC computers and one external MIDI device
- 2 dedicated footswitch connectors and one foot controller input for external remote control
- 2-port powered multi-TT USB hub for connecting additional controllers

Lay your hands on your music with the X-TOUCH Universal Control Surface. This brilliant controller has everything you need for your home studio or live setup, yet can grow as your needs expand.

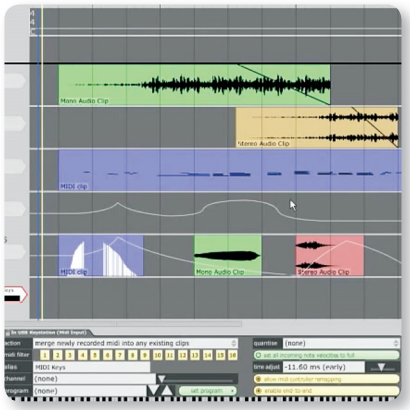

From the 9 touch-sensitive, motorized faders and the 8 dynamic LCD scribble strips, to the 8 rotary encoders, 92 illuminated buttons, 8-segment LED meters per channel and dedicated transport controls, the X-TOUCH transforms what's on your DAW's screen into one ultra-compatible, feature-packed surface for precision control and a bird's eye view of critical mix parameters. Connectivity is flexible with both traditional USB and MIDI connections, and it also has an Ethernet port for connection via wired or wireless network.

LCD Scribble Strips and
Ethernet/USB/MIDI Interface

- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V~) and low power consumption for energy saving
- 3-Year Warranty Program*
- Designed and engineered in Germany

Universally Yours

When it comes to integration, the X-TOUCH has you covered with the most widely used protocols in the industry. With included support for HUI* and Mackie Control*, you can be sure it will work seamlessly with all compatible music production software, allowing you to focus on what counts… the music.

Faders that Dance with Your Music

Your music is the embodiment of your imagination and creativity. Your controller should be equally inspired and dynamic in its response to your creation. That's why the X-TOUCH features 9 fully automated and touch-sensitive 100 mm motorized faders. Every move or automation you write can be seen in the movements of each fader in real time, perfectly synced with your DAW.

X-TOUCH

Universal Control Surface with
9 Touch-Sensitive Motor Faders,
LCD Scribble Strips and
Ethernet/USB/MIDI Interface

LCD Scribble Strips - Instant Readout

LCD scribble strips grace the top of each channel fader providing an instant visual readout of which track and parameter you are adjusting – totally eliminating old school tape-and-marker labelling.

A Symphony of Lights

With over 92 dedicated illuminated buttons, 8 rotary controls with LED collars, 8-segment LED meters per channel and an LED time code display, the X-TOUCH is a feast for the eyes as well as the hands. Know in brilliant color if a channel is muted or soloed and see how hot the level is pumping as you make changes during recording or mixing. Arm multiple tracks or adjust panning at the same time and marvel at how you ever relied on a mouse to do a controller's job.

The Feel

Navigation is a breeze with the abundant features on the X-TOUCH's surface. The large jog/shuttle wheel and tape-style transport controls provide intuitive control over the most used actions in your DAW. Race between fader banks with the touch of a button and make changes with the turn of actual knobs, the movement of real faders or the push of physical, illuminated buttons. It's like bringing your on-screen DAW controls to life!

Connect, Control, Expand

With class-compliant USB functionality, the X-TOUCH is instantly recognizable by Mac and Windows PCs. Its 5-pin MIDI port allows you to connect and communicate with an external device. The 2 dedicated footswitch connectors and one foot controller provide external remote control. The powered multi-TT USB hub provides connectivity for 2 more controllers so it can grow with your career. And the power and control can expand through an integrated Ethernet port allowing you to connect to a wireless network. Isn't that awesome?

The X-TOUCH gives you all the tools you need to streamline your workflow, and get the very best out of your recording and mixing sessions. Take full control of your DAW with motorized faders, rotary encoders with LED collars, dedicated transport controls and illuminated key function buttons. See and feel the difference a full-service controller can make in your workflow at a BEHRINGER dealer today.

Compose. Record. Mix. Share.

Tracktion is one of the world's fastest and easiest Digital Audio Workstations (DAW) for composing, recording, editing, mixing and sharing your music with the world. Featuring a single-screen interface, and pushing the envelope in design elegance, Tracktion brings together outstanding Pro DAW features, such as dynamic automation, unlimited track count, MIDI recording and support for VST and AU plug-ins. This powerful music production software gives you all the tools of an entire professional-grade recording studio. Learning a DAW has never been easier, thanks to their vast and readily available library of resources.

As our way of saying "Thank You" when you register your X-TOUCH at behringer.com, we'll reward you with a complimentary download code for the full version of Tracktion. Recording and editing couldn't be easier. To learn more about Tracktion, visit tracktion.com/support/videos.

Share the Love. Visit tracktion.com for more.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous 3-Year Warranty program.
