Ableton Live Lite

WAVES

VOCAL STUDIO PRO

COMPLETE VOCAL STUDIO PACKAGE FEATURING WAVES PLUGINS

- Studio-quality audio recording with up to 24-bit/48kHz resolution
- Zero-latency monitoring with USB/Analog Direct Balance Control
- Top-quality cardioid-pattern condenser microphone
- Includes headphones with large 50mm neodymium drivers for accuracy
- Channel-specific LED VU meters provide real-time visual feedback of the input audio signal

PULSAR II

MATCHED PAIR SMALL-DIAPHRAGM CONDENSER MICROPHONES

- 0.75"-diameter, 6-micron sputtered-gold diaphragms
- Cardioid pickup patterns
- Class-A FET transformerless electronics
- Brass bodies with internal shockmounts
- Switchable 10dB pads and 80Hz filters (18dB/octave)
- Includes stereo bar, hard mounts, risers, wind screens and soft bags—all in a wooden travel case

NOVA

LARGE-CAPSULE CONDENSER MICROPHONE

- 1.1"-diameter evaporated-gold diaphragm
- Cardioid pickup pattern
- Class A solid-state electronics
- Solid brass body and capsule
- 20 Hz–18 kHz frequency response
- Includes hard mount, soft case and XLR cable

M40

ON-EAR MONITORING HEADPHONES

- Studio-level performance and accurate sonic imaging
- 40mm drivers deliver 36Hz–20kHz response
- Lightweight and durable on-ear design
- Flexible, adjustable steel headband
- Plush ear cushions for extended comfort
- Detachable audio cable with ¼" adapter included

M50

OVER-EAR MONITORING HEADPHONES

- Studio-level performance and accurate sonic imaging
- 50mm drivers deliver 28Hz–20kHz response
- Noise-isolating, over-ear design
- Flexible, adjustable steel headband
- Plush ear cushions for extended comfort
- Detachable audio cable with ¼" adapter included

SPUTNIK

MULTI-PATTERN LARGE-DIAPHRAGM VACUUM TUBE CONDENSER MICROPHONE

- 1"-diameter, 3-micron evaporated-gold diaphragm
- Switchable cardioid, figure-eight, and omni polar patterns
- 20 Hz–20 kHz frequency response, ±1dB
- Hand-selected military-grade 6205M vacuum tube
- Dual-layer steel grille offers solid protection
- Solid brass body; tuned solid brass backplate
- Switchable 10dB pad and 80Hz filter (12dB/octave)
- Dedicated power supply with 7-pin cable
- Includes shock mount, bag and flight case
