EU™ 115

INNOVATION. AMPLIFIED.™

OVERVIEW

Housed in an ultra-light, nine-ply enclosure and protected by GatorHyde® coating, the EU 115 is designed for durability. A 15" loudspeaker with dual voice coils and a neodymium design, coupled with an RX™ 22 titanium compression driver, is at the core of this full-range, 2,000 watt peak power enclosure. In addition to convenient side handles, both the EU 115 and EU 112 include built-in stand mounts that make it easy to mount to a EU 218 Sub.
