QW® 118 SUBWOOFER

The QW 118 incorporates an extra-high-power handling Low Rider® 18" woofer and a compact, vented cabinet design that features a long path length that can move a large volume of air with very low resistance. This direct-radiator subwoofer has an incredible 1,600-watt program handling rating (3,200W peak) and extra-long speaker cone excursion that combine to produce amazingly clean, deep bass.

Dimensions (HxWxD): 28.38" x 21" x 26.75" / 721mm x 533.4mm x 679.5mm
Weight: 185lbs / 84kg

Tootsies On Broadway, Featuring the QW® Series

The star-making stage at the legendary Tootsies Orchid Lounge on Broadway in Nashville boasts a state-of-the-art QW pro audio system from Peavey.

FEATURING:

Exclusive Quadratic Throat Waveguide™ Technology

Peavey developed its exclusive Quadratic Throat Waveguide technology to eliminate the distortion caused by loudspeaker horns when pushing high sound-pressure levels (SPL).

44XT™ Compression Driver

The 44XT™ is a high performance, high power compression driver with a smooth extended high frequency response consisting of our exclusive Radialinear phase plug, one-piece titanium diaphragm and ferrofluid.

The Radialinear phase plug delivers a smooth linear frequency response with low distortion by focusing the acoustical energy and reducing the amount of high frequency cancellations and diffraction present in most other phase plug designs.

Peavey Low Rider® & Pro Rider® Speakers

The Pro Rider® and Low Rider® driver series represent a new level of power and performance for Black Widow® loudspeakers. These outstanding, high-power handling drivers feature field-replaceable baskets along with high efficiency, reduced distortion and excellent overall sound quality.
