

MX153

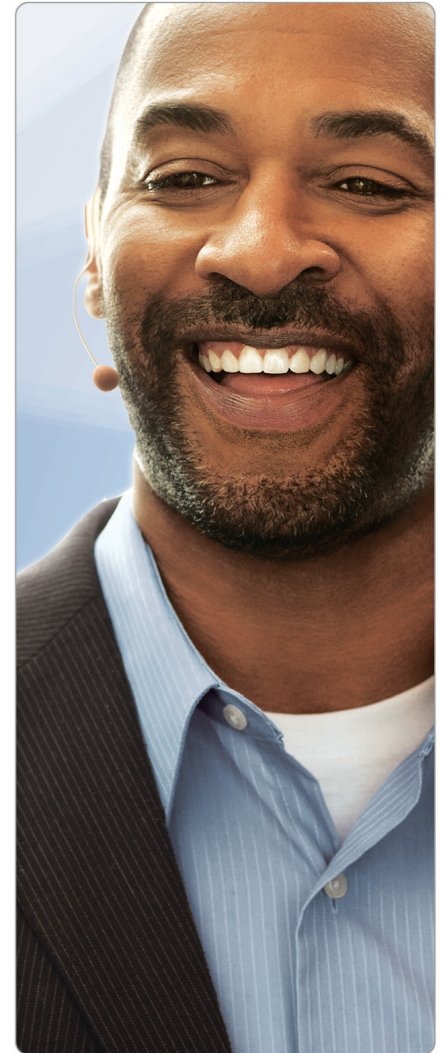

NEW FOR 2012

Microflex[®] Earset Headworn Microphone

The Shure Microflex[®] MX153 is a professional subminiature earset microphone ideal for speech and other applications requiring low-profile discreet placement where improved gain before feedback over lavalier microphones is desired. Delivering exceptional speech clarity, the MX153 is ideal for corporate presentations, houses of worship, A/V conferencing and live sound reinforcement.

Features include:

- ❖ Subminiature, omnidirectional cartridge offers superior speech clarity and enhanced plosive protection with no proximity effect
- ❖ Ultra-lightweight, comfortable, flexible design is stable and easy to place over either ear
- ❖ Kevlar reinforced, soft flex cable, terminated with TQG connector for Shure bodypack transmitters
- ❖ Matte black, tan, and cocoa color options available
- ❖ CommShield[®] Technology guards against interference from cellular RF devices and digital bodypack transmitters
- ❖ Includes protective storage pouch, 3 windscreens, and collar clip

MX153 in Black, Cocoa, Tan
