TS-800/900
Infrared Conference System
Software

Easy and flexible conference control.

Control Conferences from your Desktop

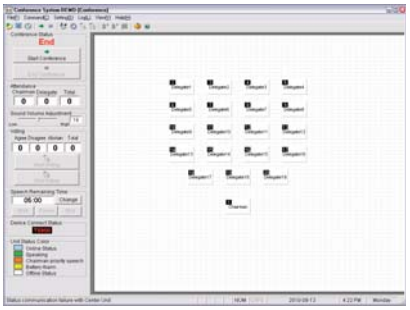

Overview

TOA's Infrared Conference System Software is designed to enhance the functionality of **TOA's TS-800/900 Infrared Wireless Conference System**. This user friendly software allows the operator to set up the functionality of a meeting in advance, record the meeting and voting results, as well as control other features of the conference. The software is compatible with Windows XP/Vista/7. The **Central Unit** (**TS-800/900**) and the computer communicate via RS-232 or USB-RS-232 Converter.

Main Features

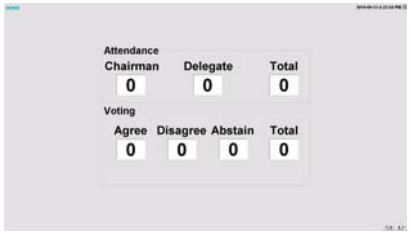

- Configure, control, manage and personalize/customize each conference
- Assign unit ID's and member names
- Conference equipment set-up and configuration
- Conference Main Display controls and monitors meeting functions, including; start/end conference, voting and speech timer, monitor attendance and unit status (connection status, speaking, chairman priority, battery alarm)
- Record and access the conference speech and voting for later reference/review
- Conference configuration: edit and save conference settings, including; volume settings, voting settings, count down timer function, etc.
- Dual monitor viewing options (computer monitor and/or projector)
- *Software disk available by request only. Please contact TOA's Technical Support Department for more information.*

Conference Main Display
